With respect to #3, we had requested the following:

- (1) All documents, including reports, surveys, memoranda, correspondence, samples or data, in U.S. EPA's possession addressing any investigation, remediation, or removal activities addressing the presence of thorium, uranium or other radionuclide material located at, on or under the 738 Upper Mountain Road property in Lewiston, NY (EPA ID No. NYN000206697).

For the time being, can we please obtain any and all reports, surveys, samples and/or data relating to: (1) the presence of thorium, uranium or other radionuclide material located at, on or under the 738 Upper Mountain Road property in Lewiston, NY (EPA ID No. NYN000206697) (the "Upper Mountain Road Site") and (2) documents relating to the source of any such thorium, uranium or other radionuclide material located at, on or under the Upper Mountain Road Site.

Let me know if this sufficiently narrows this interim request.
